EFFECTIVE TREATMENT, CLOSE TO HOME AND WORK

WHAT IS OUTPATIENT TREATMENT?

Outpatient Treatment is a flexible treatment option that allows adults to continue working or attending school. Outpatient Treatment consists of multiple counseling sessions over the span of four to six weeks. Our program provides clients the support of our staff and peers while navigating day to day life.

WHY GATEWAY FOUNDATION? PERSONALIZED TREATMENT PLANS

Our highly credentialed and experienced staff offer support at every step of recovery and provide the highest level of substance use treatment and counseling.

Our LCSW and Master's LSW credentialed staff develop individualized treatment plans that address the specific needs of each client and empower them to regain control of their lives.

Our treatment modality integrates nine medically researched evidence-based practices and scientifically proven methods which makes our treatment more effective.

EVIDENCE-BASED PRACTICES

- Acceptance and Commitment Therapy (ACT)
- Cognitive-Behavioral Therapy (CBT)
- Dialectical Behavior Therapy (DBT)
- Dual Diagnosis
- Medication-Assisted Treatment (MAT)
- Mindfulness-Based Sobriety
- Motivational Interviewing (MI)
- Seeking Safety
- 12-Step Facilitation

DUAL DIAGNOSIS CAPABILITY IN ADDICTION TREATMENT (DDCAT)

Research indicates that 40 percent of people with substance use disorders also have a co-occurring mental health disorder, this is known as a dual diagnosis. In order to ensure the highest rates of success, our staff are trained in treating dual diagnosis and have been certified as Dual Diagnosis Capable. Our staff are able to treat acute cases of mental health disorders and develop customized treatment plans that treat not just the addiction – but the underlying causes.

PARTNER WITH US FOR LIFE

Recovery is a lifelong process that requires continued focus and commitment. You will benefit from ongoing support from other alumni, social activities, and educational workshops to help empower your recovery for life. We also offer our alumni continued support on their mobile devices through our own Gateway Connect app.
